

# U

# GAU861

**Designed specifically for buses operating in urban conditions with frequent stops, changes in direction and speed**

- A high performing urban tire with reinforced sidewall protectors, robust casing construction, cap and base technology
- Super resistant to curbing and impact damage with good mileage performance this is combined with reduced noise levels for increased passenger comfort
- Excellent winter properties

Size	Load	SI	Tube Type / Tubeless		Rim	Load Single Kg	Load Dual Kg			Noise (dB)			
275/70R22.5	150/145 (154/148)	J (E)	TL	3PMSF	8.25	3350	2900	276	958	73	2	B	D

## Features

- Wide and very deep tread pattern
- Numerous full tread depth sipes in tread blocks
- Reinforced sidewalls with asymmetric sidewall wear indicators
- Achieves 3PMSF certification

## Benefits

- > Provides excellent mileage performance
- > Provides a very high level of winter traction and braking properties
- > Protects the tire from curbing damages and abrasions, the sidewall wear indicator indicates the correct time to rotate or demount the tire
- > Meets the requirements across Europe for 3PMSF Winter tires. It has the 3PMSF symbol on the tire sidewall
